The Board of Trustees
Long Beach Community College District

In accordance with *Government Auditing Standards*, we have also issued our report dated November 11, 2008 on our consideration of the Long Beach Community College District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The required supplementary information, such as the management's discussion and analysis and the schedules of funding progress and employer contributions, is not a required part of the basic financial statements, but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the Long Beach Community College District's basic financial statements. The supplementary section and continuing disclosure information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements. The supplementary information, including the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The continuing disclosure information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

LONG BEACH COMMUNITY COLLEGE DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2008

Introduction

The following discussion and analysis provides an overview of the financial position and activities of the Long Beach Community College District (the "District") for the year ended June 30, 2008. This discussion is prepared by management and should be read in conjunction with the financial statements and notes, which follow this section.

The District is a comprehensive California college located in the southern part of Los Angeles County covering an urban area of approximately 128 square miles, serving approximately 28,000 students at two campuses, the Liberal Arts Campus and the Pacific Coast Campus, and at various satellite locations. To serve its community, the District offers a comprehensive set of education programs and support services in response to student and community needs and plays a key role in transfer preparation, workforce development, basic skills, associate degrees, English as a Second Language instruction, economic development, and lifelong learning.

Accounting Standards

In June 1999, the Governmental Accounting Standards Board (GASB) released Statement No. 34, "Basic Financial Statement and Management's Discussion and Analysis for State and Local Governments," which changed the reporting format for annual financial statements. In November 1999, GASB released Statement No. 35, "Basic Financial Statement and Management's Discussion and Analysis for Public Colleges and Universities," which applies these reporting standards to public colleges and universities. The Fiscal Accountability and Standards Committee of the California Community Colleges Chancellor's Office recommended that all California community colleges follow these standards under the Business Type Activity (BTA) model. Nearly all public colleges and universities nationwide have selected the BTA reporting model, which makes it easier to display comparable data. As such, the District uses the BTA model for reporting its financial statements. Under the BTA model state and local taxes and invest income are classified as non-operating revenues.

Selected Highlights

This section is to provide an overview of the District's financial activities. A comparative analysis is included in the Management's Discussion and Analysis using prior year information.

- Net assets for governmental activities increased \$13,921,334 (22.8%) from \$61,032,597 to \$74,953,931.
- Total operating and non-operating revenues increased \$14,606,505 (7.8%) from \$186,066,299 to \$200,672,804.
- Cash balance (cash and cash equivalents) current and restricted increased \$32,325,268 (36.2%) from \$89,184,070 to \$121,509,338.
- Total ending fund balances increased \$29,631,074 (29.9%) from \$98,842,807 to \$128,473,881.
- In 2007-08 the District's primary funding source was "State Apportionment Funding" received from the State of California through the State Chancellor's Office. This funding is comprised of State apportionment, local property taxes, and student enrollment fees, which were \$20 per unit in the year ending June 30, 2008. The primary basis of this apportionment is the calculation of Full-Time Equivalent Students (FTES). Our total apportionment eligible FTES were 21,529.23 for the 2007-08 fiscal year.

LONG BEACH COMMUNITY COLLEGE DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2008

- The primary expenditure of the District is for the salaries and benefits for academic, classified, and administrative personnel. These costs increased from the previous fiscal year by \$3,860,932 to \$112,184,658. This 3.5% increase is due to higher salary and benefit costs and a slightly larger workforce.
- The District has made significant progress with the construction of new facilities including:

Location	% Complete
----------	------------

Liberal Arts Campus

South Quad Complex	87%
Learning Resources Center	96%
Central Plant	99%

Pacific Coast Campus

Learning Resources Center	100%
Technology I Building	48%
Central Plant	99%

Projects in the planning and design stages are:

- Parking Structure – Liberal Arts Campus
- Building A Renovation – Liberal Arts Campus
- Multi-Disciplinary Academic Building – Pacific Coast Campus
- Building CC Renovation – Pacific Coast Campus
- Infrastructure projects
- Landscape and signage upgrades

These projects were funded through the District's \$621 million General Obligation Bond program and/or State construction program funding.

- The District provided student financial aid to qualifying students of the District in the amount of \$28,249,893. This represents a \$3,372,994 increase from the 2006-07 fiscal year. This aid is provided through grants and loans from the Federal and State programs. The increase is primarily due to Federal Pell Grant maximums, which increased from \$3,938 per student to \$4,310 per student. This is a 9.4% increase in financial support to students who received Pell grants.

Financial Statement Presentation and Basis of Accounting Governmental Funds

The District's financial report includes three primary financial statements: The Statement of Net Assets, the Statement of Revenues, Expenses and Changes in Net Assets, and the Statement of Cash Flows. Additional information regarding these financial statements is provided on the following pages.

The financial statements noted above are prepared in accordance with Governmental Accounting Standards Board Statements No. 34 and 35, which provides an entity wide perspective. Therefore, the financial data presented in these financial statements is a combined total of all District governmental funds including Student Financial Aid Programs, Proprietary Funds and a portion of the Retiree Benefits Fund deemed to be governmental in nature.

Also, in accordance with Governmental Accounting Standards Board Statements No. 34 and 35, the financial statements have been prepared under the full accrual basis of accounting, which requires that revenues are recognized when earned and expenses are recorded when an obligation has been incurred. A reconciliation between the fund balances reported on the June 30, 2008 Annual Financial and Budget Report (CCFS-311) based upon governmental accounting principles and the modified accrual basis of accounting and the total net assets recorded on the full accrual basis of accounting is as follows:

Unrestricted Fund Balance	\$ 14,882,492
Restricted Fund Balance	3,017,607
Bond Interest and Redemption Fund Balance	3,574,348
Revenue Bond Construction Fund Balance	77,557,928
Capital Outlay Projects Fund Balance	7,778,995
Other Debt Service Fund Balance (COPS Debt Service)	10,161,963
Child Development Fund Balance	38,145
Other Special Revenue Funds Balance (Veteran's Stadium Operation and Contract/Community Education)	1,194,724
Other Trust Fund Balance (Retiree Benefits)	8,279,174
Student Financial Aid and Trust Fund Balance	121,523
Self Insurance Fund Balance	<u>1,609</u>
Total Fund Balances as reported on the Annual Financial and Budget Report (CCFS-311)	126,608,508

Amounts reported for governmental activities in the statement of net assets are different because of the following GASB 34/35 full disclosure requirements:

Total Ending Fund balances	\$ 128,473,881
----------------------------	----------------

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used for governmental activities are not financial resources and therefore are not reported as assets in governmental funds. However, capital assets, net of accumulated depreciation are added to total net assets. Capital assets of \$418,766, are already reported in the Auxiliary Fund.	182,284,290
--	-------------

Compensated absences and load banking are not due and payable in the current period, and therefore are not reported in the governmental funds. Compensated absences and load banking of \$182,922 and \$77,667 are already reported in the Unrestricted General Fund and the Auxiliary, respectively.	(4,484,457)
---	-------------

Short-term and long-term liabilities, including bonds, certificates of participation, financing agreement and capital leases are not due and payable in the current period, and therefore are not reported as liabilities in the governmental funds. Short-term and long-term liabilities are added to the statement of net assets which reduces the total net assets reported.	(227,799,628)
---	---------------

Issuance costs related to bonds incurred through June 30, 2008 are capitalized and added to total net assets.	1,877,189
---	-----------

Interest expense related to bonds incurred through June 30, 2008 are required to be accrued under full accrual basis of accounting. This liability is added to the statement of net assets, which reduces the total net assets reported.	(1,004,233)

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2008

Statement of Net Assets

The Statement of Net Assets presents the assets, liabilities and net assets of the District as of the end of the fiscal year. It is prepared using the full accrual basis of accounting, which is similar to the accounting basis used by most private-sector organizations. The Statement of Net Assets is a "point-in-time" financial statement. The purpose of this statement is to present the readers with a fiscal snapshot of the District on June 30, 2008. The Statement of Net Assets presents end-of-year data concerning assets (current and non-current), liabilities (current and non-current) and net assets (assets minus liabilities).

From the data presented, readers of the Statement of Net Assets are able to determine the assets available to continue the operations of the District. Readers are also able to determine how much the District owes vendors and employees. Finally, the Statement of Net Assets provides a picture of the net assets and their availability for expenditure by the District.

The difference between total assets and total liabilities (net assets) is one indicator of the current financial condition of the District. The change in net assets is an indicator of whether the overall financial condition has improved or worsened during the year. Assets and liabilities are generally measured using current values. One notable exception is capital assets, which are stated at historical cost less an allocation for depreciation expense.

Total net assets increased 22.8% from \$61,032,597 to \$74,953,931. Major components comprising this increase are capital assets (net of accumulated depreciation) cash and cash equivalents, and net accounts receivables.

Capital assets increased 41.5% from \$129,108,291 to \$182,703,056. This is the result of the district's substantial investment in constructing and renovating buildings at each of the district's two campuses.

Cash and cash equivalents increased \$32,386,552 due to selling \$71 million of general obligations bonds (Series D) and the spending on construction projects.

Accounts receivable increased by \$4,623,035 or 29.3%. This is caused by delays in the Federal and State reimbursement process for various grants and categorical programs for \$.08 million, as well as an increase in the apportionment accrual of \$3.1 million.

LONG BEACH COMMUNITY COLLEGE DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2008

The components of net assets are investment in capital assets, restricted assets and unrestricted assets. The following chart shows the percentage for each of those components. The \$37,117,443 investment in capital assets is for construction of new facilities, major facilities improvements and equipment valued at \$5,000 or more.

\$19,754,334 of restricted assets are assets that must be used to meet the goals and purposes of the Federal, State, local, or private agencies providing the assets.

The value of unrestricted assets was \$18,082,164. Many of the unrestricted net assets have been designated by the Board for such purposes as Federal and State grants objectives, outstanding commitments on contracts, and general reserves for the ongoing financial health of the District.

Statement of Revenues, Expenses and Changes in Net Assets

Changes in total net assets as presented on the Statement of Net Assets are based on the activity presented in the Statement of Revenues, Expenses and Changes in Net Assets. The purpose of this statement is to present the operating and non-operating revenues earned, whether received or not, by the District, the operating and non-operating expenses incurred, whether paid or not, by the District, and any other revenues, expenses, gains and/or losses earned or incurred by the District. Thus, this Statement presents the District's results of operations.

LONG BEACH COMMUNITY COLLEGE DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2008

Generally, operating revenues are earned for providing educational and programmatic services to students, customers and constituencies of the District. Operating expenses are those expenses incurred to provide services provided in return for the operating revenues used to fulfill the mission of the District. Non-operating revenues are those received or pledged for which goods and services are not provided to the entity providing the revenues. For example, state appropriations are non-operating revenues because they are provided by the legislature to the District without the legislature directly receiving services for those revenues.

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2008

While the distinction between operating and non-operating revenues is useful to managers for profit business enterprises, this distinction is not as important for managers of public sector community colleges. Therefore, to simplify the discussion, operating revenue, non-operating revenue and other revenues were combined in the following table:

	2008 (in thousands)	2007 (in thousands)	Change
Revenues			
Operating Revenues	66,776	68,932	-3%
Non Operating Revenues	103,621	100,212	3%
Other Revenues	30,275	16,922	79%
	200,672	186,066	8%
Expense			
Operating Expenses	(178,419)	(168,523)	6%
Other Expenses	(8,332)	(4,984)	67%
Total Expenses	(186,751)	(173,507)	8%
Change in Net Assets	13,921	12,559	11%
Net Assets at beginning of year	61,033	49,115	24%
Adjustments for restatement	-	(641)	-100%
Net Assets at beginning of year, restated	61,033	48,474	26%
Net Assets End of Year	\$ 74,954	\$ 61,033	23%

The 79% increase in other revenues is from State and local sources for the District's facilities construction program.

This schedule has been prepared from the Statement of Revenues, Expenses, and Changes in Net Assets presented on page 2.

Net tuition and fees declined 19% because student enrollment fees were \$26 per unit for the first half (Fall 2006) of 2006-07 and then were reduced 23% to \$20 per unit for the second half of 2006-07 and all of 2007-08. Additionally, scholarships discounts and allowances decreased \$6.5 million to \$5.2 million.

Local property taxes decreased 16% because of the "triple flip" effect. Sales tax revenues previously allocated to local governments, went to the State. The State then in turn replaced lost local government sales tax revenue with property tax revenue in the form of Education on Revenue Augmentation Funds (ERAF), which previously belonged to Community Colleges.

State apportionments, capital increased from \$6.5 million to \$16.6 million because the District participated in the State Construction Building Program which qualified the District for \$10.1 million in additional funds of State apportionment revenues for qualified construction progress projects.

LONG BEACH COMMUNITY COLLEGE DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2008

Total revenues were \$200,672,804 while total expenditures were \$186,751,470. This yields a 2007-2008 increase in net assets of \$13,921,334. The bottom line net assets increase is 22.8% from \$61,032,597 to \$74,953,931.

The following charts show the sources of revenue to the district. The largest source (45%) is State apportionment, which is derived from the State's funding formula for Community Colleges.

Statement of Cash Flows

The Statement of Cash Flows provides information about cash receipts and cash payments during the fiscal year. This Statement helps users assess the District's ability to generate positive cash flows, meet obligations as they come due, and the need for external financing.

The Statement of Cash Flows is divided into four parts: Cash Flows from Operating Activities, Cash Flows from Non-Capital Financing Activities, Cash Flows from Capital and Related Financing Activities, and Cash Flows from Investing Activities. The first part reflects operating cash flows and shows the net cash provided by the operating activities of the District. The second part details cash received for non-operating, non-investing and non-capital financial purposes. The third part shows cash flows from capital projects and related financing activities. This part deals with the cash used for the construction and improvement of capital facilities and related items. The fourth part provides information from investing activities and the amount of interest received.

Operating activities – Cash receipts from operating activities are derived from a variety of sources, including from student fees, enterprise activities, and from Federal, State, local, and private grants. Uses of cash are salaries and benefits for employees, payments to vendors, and financial aid to students. Cash receipts and payments vary based on timing of the District receiving and disbursing cash; however, throughout the year, the District always maintained a positive cash position.

Non-capital financing activities – These cash sources include State apportionment, local property taxes, and grants.

Capital and related financing – The increased use is attributed to increases in capital assets as described in the following section entitled "Capital Assets and Debt Administration".

Investing activities – The District invests debt service reserves related to its Certificates of Participation in Guaranteed Investment Contracts. Additional information on the District's investments can be found in the notes to the financial statements. See Note 2.B on page 22.

The net change in cash, considering all sources and uses was \$32,325,268. This results in an end of year cash balance of \$121,509,338. As a matter of prudent financial management, the District maintains a positive cash position at all times.

*Certain reclassifications have been made to the summarized financial statements for the year 2006-07 to conform to the 2007-08 summarized financial statement presentation.

This schedule has been prepared from the Statement of Cash Flow presented on page 3.

Cash used in operating activities increased to pay for higher salaries and benefit costs (\$1.3 million); payments increasing to suppliers (\$3.1 million) for spending related to increased awards for grants and contracts where the money has been spent but not reimbursed; and payments increased to students (\$2.5 million) primarily due to the increase in Pell allowances. Additionally, there was a \$3.2 million decline in cash from grants and contracts due to the timing of when money is received.

Capital Assets and Debt Administration

Capital Assets

On June 30, 2007, the District had \$129,108,291, net of depreciation, in a broad range of capital assets including land, buildings, equipment and construction in progress. During the 2007-08 fiscal year, the District continued to modernize various facilities throughout the District at a cost of \$56,980,304. At the end of the year capital assets were valued at \$182,703,056 which is a 41.5% increase. In accordance with GASB requirements, all assets, including land, is recorded at historical cost. Actual fair-market value of land is substantially higher than historical cost. This is due to the fact that land for the Liberal Arts Campus and the Pacific Coast Campus was acquired approximately seventy-five years ago and land values in Southern California have increased over this time.

Note 5 to the financial statements provide additional information on capital assets, a comparison of capital assets net of depreciation is summarized below:

LONG BEACH COMMUNITY COLLEGE DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2008

Economic Factors Affecting the Future of Long Beach Community College District

The economic position of Long Beach Community College District is closely tied to the economic health of the State of California. State appointment and other State revenues, non-capital, of \$107 million support 62% of total operating expenses, excluding depreciation.

The District has implemented an aggressive enrollment management plan, which is expected to increase student enrollment by 1% to 2% each year. The Enrollment Management Plan is based on the following strategic initiative:

1. Improved information systems
2. Revitalized curriculum and education programs
3. More efficient course scheduling
4. More supportive student services
5. Expanded student recruitment efforts with local high schools
6. Focused student retention and intervention
7. Targeted community marketing

Future State funding for the District is characterized by volatility inherent in the State's economy. For fiscal year 2008-09 the State budget deficit is estimated to exceed \$11.2 billion. For 2008-09 the State was 85 days late with adopting a state budget. As a result, \$29.6 million that the college should have received during the first quarter of 2008-09 was not received until October 6, 2008. Despite this State economic problem, the District remains cautiously optimistic that it can make the needed budget cuts and still meet its educational mission and commitment to students.

In November the Governor called special session of the Legislature to deal with the problem. On November 6, 2008, the Governor released his proposal for mitigating the budget problem. Included in his proposal are the following cuts to the entire California Community College's System-Wide Budget:

- Elimination of the 0.68% COLA (\$39.8 million)
- A 5% budget cut to the current year general apportionment (\$292.4 million)

If the Governor's proposal is approved by the legislature, these funding reductions pose a daunting challenge to the District, and difficult resource allocation decisions will have to be made. The District's governing board, administration and faculty are fully prepared to meet this challenge and make the difficult resource allocation decisions. The planning, leadership and governance process at Long Beach Community College District are strong, so the District's governing board, administration and faculty are fully prepared to meet this challenge and make the difficult resource allocation decisions.

LONG BEACH COMMUNITY COLLEGE DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2008

On a positive note, the District continues to reduce the unfunded liability for Other Post-Employment Benefits (OPEB). The Retiree Health Benefit Fund balance increased from \$6.6 million to \$8.3 million, of this balance, \$1 million represents the ending fund balance of the irrevocable trust reported in a separate statement of net assets and statement of changes in net as Other Postemployment Benefit Plans in accordance with GASB 43.

Ongoing construction projects will continue for the next several years; which will continue to increase the value of the District's capital assets because construction costs will be capitalized and net assets will increase. There will be some additional costs for the operation and maintenance of those new facilities.

In February 2008, the District successfully asked voters to approve a \$440 million bond issue. 73.22% of the voters supported the bond measure.

To meet the physical expansion need of the District, efforts are currently underway to purchase real property adjacent to the Pacific Coast Campus and two vacant buildings adjacent to the Liberal Arts Campus.

There are currently no other known facts, decisions, or conditions that will have a significant effect on the financial position (net assets) or results of operations (revenues, expenses, and changes in net assets) of the District.

LONG BEACH COMMUNITY COLLEGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

A. REPORTING ENTITY:

The District is the level of government primarily accountable for activities related to public education. The governing authority consists of elected officials who, together, constitute the Board of Trustees.

The District considered its financial and operational relationships with potential component units under the reporting entity definition of GASB Statement No. 14, The Financial Reporting Entity. The basic, but not the only, criterion for including another organization in the District's reporting entity for financial reports is the ability of the District's elected officials to exercise oversight responsibility over such agencies. Oversight responsibility implies that one entity is dependent on another and that the dependent unit should be reported as part of the other.

Oversight responsibility is derived from the District's power and includes, but is not limited to: financial interdependency; selection of governing authority; designation of management; ability to significantly influence operations; and accountability for fiscal matters.

Based upon the requirements of GASB Statement No. 14, and as amended by GASB Statement No. 39, Determining Whether Certain Organizations are Component Units, certain organizations warrant inclusion as part of the financial reporting entity because of the nature and significance of their relationship with the District, including their ongoing financial support to the District or its other component units. A legally separate, tax-exempt organization should be reported as a component unit of the District if all of the following criteria are met:

1. The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the District, its component units, or its constituents.
2. The District, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization.
3. The economic resources received or held by an individual organization that the District, or its component units, is entitled to, or has the ability to otherwise access, are significant to the District.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

A. REPORTING ENTITY: (continued)

Based upon the application of the criteria listed above, the following three potential component units have been included in the District's reporting entity through blended presentation:

Long Beach City College Auxiliary (The Auxiliary) – The Auxiliary is a separate not-for-profit corporation formed to promote and assist the educational program of the District. The Board of Directors are elected independent of any District Board of Trustee's appointments. The Board is responsible for approving their own budget and accounting and finance related activities; however, the District's governing board has fiscal responsibility over the Auxiliary. The activity of the Auxiliary has been blended in the District-wide financial statements. Individually prepared financial statements are not prepared for the Long Beach City College Auxiliary.

Long Beach City College Associated Student Body (ASB) – The ASB is a separate not-for-profit corporation formed to promote and assist the educational program of the District. The Board of Directors are elected independent of any District Board of Trustee's appointments. The Board is responsible for approving their own budget and accounting and finance related activities; however, the District's governing board has fiscal responsibility over the ASB. The activity of the ASB is shown in the fiduciary financial statements. Individually prepared financial statements are not prepared for the Long Beach City College ASB.

Long Beach Community College Financing Authority Corporation (The Corporation) – The Corporation is a legally separate organization formed to issue debt specifically for the acquisition and construction of capital assets for the District. The Governing Board of the Corporation is the same as the Governing Board of the District. The activity of the Corporation has been blended with the District-wide financial statement. In addition, the certificates of participation (COPS) issued by the Corporation are included as long-term liabilities in the basic financial statements. Individually prepared financial statements are not prepared for the Long Beach Community College Financing Authority Corporation.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

A. REPORTING ENTITY: (continued)

Based upon the application of the criteria listed above, the following potential component unit has been excluded from the District's reporting entity:

Long Beach City College Foundation – The Foundation is a separate not-for-profit corporation. The Foundation is not included as a component unit because the third criterion was not met; the economic resources received and held by the Foundation are not significant to the District.

Separate financial statements for the Foundation can be obtained through the District.

B. FINANCIAL STATEMENT PRESENTATION:

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB), including Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis – for State and Local Governments and including Statement No. 35, Basic Financial Statements and Management's Discussion and Analysis of Public College and Universities, issued in June and November 1999 and Audits of State and Local Governmental Units issued by the American Institute of Certified Public Accountants. The financial statement presentation required by GASB No. 34 and No. 35 provides a comprehensive, entity-wide perspective of the District's financial activities. The entity-wide perspective replaces the fund-group perspective previously required. Proprietary activities reported in the enterprise and internal service funds are included in the entity-wide perspective. Fiduciary activities, with the exception of Student Financial Aid Programs and retiree benefit activity, are excluded from the basic financial statements.

LONG BEACH COMMUNITY COLLEGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

C. BASIS OF ACCOUNTING:

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of measurement made, regardless of the measurement focus applied.

For financial reporting purposes, the District is considered a special-purpose government engaged in business-type activities. Accordingly, the District's basic financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency transactions have been eliminated with exception of those between the District and its Fiduciary Funds.

For internal accounting purposes, the budgetary and financial accounts of the District have been recorded and maintained in accordance with the Chancellor's Office of the California Community College's Budget and Accounting Manual.

To ensure compliance with the California Education Code, the financial resources of the District are divided into separate funds for which separate accounts are maintained for recording cash, other resources and all related liabilities, obligations and equities.

By state law, the District's Governing Board must approve a budget no later than September 15. A public hearing must be conducted to receive comments prior to adoption. The District's Governing Board satisfied these requirements. Budgets for all governmental funds were adopted on a basis consistent with generally accepted accounting principles (GAAP).

These budgets are revised by the District's Governing Board during the year to give consideration to unanticipated income and expenditures. Formal budgetary integration was employed as a management control device during the year for all budgeted funds. Expenditures cannot legally exceed appropriations by major object account.

NOTES TO FINANCIAL STATEMENTS

June 30, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

C. BASIS OF ACCOUNTING: (continued)

In accordance with GASB Statement No. 20, the District follows all GASB statements issued prior to November 30, 1989 until subsequently amended, superceded or rescinded. The District has the option to apply all Financial Accounting Standards Board (FASB) pronouncements issued after November 30, 1989 unless FASB conflicts with GASB. The District has elected to not apply FASB pronouncements issued after the applicable date.

1. Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Cash in the County Treasury is recorded at cost, which approximates fair value, in accordance with the requirements of GASB Statement No. 31.

2. Accounts Receivable

Accounts receivable consists primarily of amounts due from the Federal government, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the District's grant and contracts. The District recognized for budgetary and financial reporting purposes any amount of state appropriations deferred from the current fiscal year and appropriated from the subsequent fiscal year for payment of current year costs as a receivable in the current year.

3. Stores Inventories

Inventory is expensed when purchased in the General Fund; these items consist of expendable instructional, custodial, health and other supplies for consumption. Inventory is valued at cost in the Auxiliary Fund and consists of text books and other items sold in the bookstore.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

C. BASIS OF ACCOUNTING: (continued)

4. Prepaid Expenses

Payments made to vendors for goods or services that will benefit periods beyond June 30, 2008, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which goods or services are consumed. Prepaid expenses consist primarily of prepaid insurance premiums and the debt service payment for the financing agreement.

5. Restricted Cash and Cash Equivalents

Restricted cash and cash equivalents are those amounts externally restricted as to use pursuant to the requirements of the District's grants and contracts and amounts restricted for debt service payments on the general obligation bonds, certificates of participation and financing agreement.

6. Capitalized Fees

Amounts paid for fees and underwriting costs associated with long-term debt are capitalized and amortized to interest expense over the life of the liability. These costs are amortized using the straight-line method.

7. Capital Assets

Capital assets are recorded at cost at the date of acquisition. Donated capital assets are recorded at their estimated fair value at the date of donation. For equipment, the District's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life of greater than one year. Buildings as well as renovations to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. Interest incurred during construction is not capitalized.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

C. BASIS OF ACCOUNTING: (continued)

7. Capital Assets (continued)

The cost of normal maintenance and repairs that does not add to the value of the asset or materially extend the asset's life is recorded in operating expense in the year in which the expense was incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 50 years for buildings, 25 years for portable buildings, 20 years for building and land improvements, 5 years for equipment and vehicles and 3 years for technology.

8. Accounts Payable

Accounts payable consists of amounts due to vendors.

9. Accrued Liabilities

Accrued liabilities consist of salary and benefits payable.

10. Deferred Revenue

Cash received for federal and state special projects and programs is recognized as revenue to the extent that qualified expenditures have been incurred. Deferred revenue is recorded to the extent cash received on specific projects and programs exceeds qualified expenditures.

11. Compensated Absences

In accordance with GASB Statement No. 16, accumulated unpaid employee vacation benefits and load banking are recognized as liabilities of the District as compensated absences in the Statement of Net Assets. The entire compensated absences liability is accrued when incurred in the government-wide and in the proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirement.

C. BASIS OF ACCOUNTING: (continued)

11. Compensated Absences (continued)

Load banking hours consist of hours worked by instructors in excess of a full-time load for which they may carry forward for future paid time off.

Sick leave benefits are accumulated without limit for each employee. The employees do not gain a vested right to accumulated sick leave.

Accumulated employee sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expense in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires and within the constraints of the appropriate retirement systems.

12. Net Assets

Invested in capital assets, net of related debt: This represents the District's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt.

Restricted net assets – expendable: Restricted expendable net assets include resources in which the District is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

C. BASIS OF ACCOUNTING: (continued)

12. Net Assets (continued)

Restricted net assets – nonexpendable: Nonexpendable restricted net assets consist of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal. The District had no restricted net assets – nonexpendable.

Unrestricted net assets: Unrestricted net assets represent resources available to be used for transactions relating to the general operations of the District, and may be used at the discretion of the governing board to meet current expenses for any purpose.

13. State Apportionments

Certain current year apportionments from the state are based upon various financial and statistical information of the previous year.

Any prior year corrections due to the recalculation in February of 2009 will be recorded in the year computed by the State.

The District has recorded accounts receivable of approximately \$5.3 million related to the June deferred apportionment payment, net of property tax and enrollment fee revenue adjustments.

14. Property Taxes

Secured property taxes attach as an enforceable lien on property as of March 1. Taxes are payable in two installments on November 15 and March 15. Unsecured property taxes are payable in one installment on or before August 31.

Real and personal property tax revenues are reported in the same manner in which the County auditor records and reports actual property tax receipts to the Department of Education. This is generally on a cash basis. A receivable has not been recognized in the General Fund for property taxes due to the fact that any receivable is offset by a payable to the State for apportionment purposes. Property taxes for debt service purposes have been accrued in the basic financial statements.

15. On-Behalf Payments

GASB Statement No. 24 requires that direct on-behalf payments for fringe benefits and salaries made by one entity to a third party recipient for the employees of another, legally separate entity be recognized as revenue and expenditures by the employer government. The State of California makes direct on-behalf payments for retirement benefits to the State Teachers' Retirement System on behalf of all community college and school districts in California. However, a fiscal advisory was issued by the California Department of Education instructing districts not to record revenue and expenditures for these on-behalf payments. The amount of on-behalf payments made for the District is estimated at \$873,000 for STRS.

16. Classification of Revenues

The District has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating revenues: Operating revenues include activities that have the characteristics of exchange transactions, such as student fees, net of scholarship discounts and allowances, and Federal and most state and local grants and contracts.

Nonoperating revenues: Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as State apportionments, taxes, and other revenue sources that are defined as nonoperating revenues by GASB No. 9, Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities that use Proprietary Fund Accounting, and GASB No. 33, such as investment income.

17. Scholarship Discounts and Allowances

Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship discounts and allowances in the statement of revenues, expenses, and changes in net assets. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the District, and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, and other Federal, state or nongovernmental programs, are recorded as operating revenues in the District's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the District has recorded a scholarship discount and allowance.

18. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

19. New Accounting Pronouncements

The Governmental Accounting Standards Board (GASB) has recently issued Statement No. 43, *Financial Reporting for Postemployment Benefit Plans Other than Pension Plans*, outlining new accounting standards for Other Postemployment Benefit (OPEB) trust funds included as an agency fund in the financial statements of a governmental agency. The District has established a trust for investment and disbursement of funds for the payment of its obligations to eligible employees which is included in these financial statements. The statement provides standards for (a) financial reporting of the plan assets, liabilities, net assets, and changes in net assets held in trust for payment of benefits and (b) disclosure of actuarial information about the funded status and funding progress of the plan (the extent to which resources have been accumulated in comparison to actuarially accrued liabilities for benefits) and the contributions made to the plan by participating employers in comparison to annual required contributions of the employer(s) (ARC). A detailed disclosure is provided at Note 14.

NOTE 2 – DEPOSITS AND INVESTMENTS:

A. Deposits

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District has established a policy for custodial risk. As of June 30, 2008, \$13,451,957 of the District's bank balance of \$14,139,167 was exposed to credit risk as follows:

Uninsured and uncollateralized	\$ 8,795,880
Uninsured and uncollateralized ⁽¹⁾	<u>4,656,077</u>
	<u>\$13,451,957</u>

⁽¹⁾Deposits held with fiscal agent in money market funds are rated AAA or better by Standard and Poor's, as required by the Districts investment policy.

Cash in County Treasury

In accordance with Title 5 and the Budget and Accounting Manual, the District maintains substantially all of its cash in the Los Angeles County Treasury as part of the common investment pool. The county pools these funds with those of other districts in the county and invests the cash. These pooled funds are carried at cost which approximates fair value. The fair market value of the District's deposits in this pool as of June 30, 2008, as provided by the pool sponsor, was \$113,235,418. Interest earned is deposited monthly into participating funds. Any investment losses are proportionately shared by all funds in the pool.

The County is authorized to deposit cash and invest excess funds by California Government Code Section 53648 et. seq. The funds maintained by the County are either secured by federal depository insurance or are collateralized.

The District operates a warrant pass-through fund as a holding account for amounts collected from employees for federal taxes, state taxes and other contributions. The District had Cash in the County Treasury amounting to \$662,602 on June 30, 2008, which represents withholdings payable.

B. Investments

California Government Code Sections 16430, 53601, and 53602 allows governmental entities to invest surplus moneys in certain eligible securities. In addition, the District's investment policy limits its investment choices to those allowed by California Government Code Section 53651. The District did not violate any provisions of the California Government Code during the 2007-08 fiscal year.

Investments with fiscal agent at June 30, 2008 held on behalf of the Long Beach Community College Financing Authority Corporation are presented below:

B. Operating Leases

The District has entered into various operating leases for photocopiers and office equipment with lease terms in excess of one year. Future minimum lease payments under these agreements are as follows:

<u>Fiscal Year</u> <u>Ending June 30,</u>	<u>Lease Payment</u>
2009	\$ <u>114,022</u>
Total	\$ <u>114,022</u>

Current year expenditures for operating leases is approximately \$127,000. The District will receive no sublease rental revenues nor pay any contingent rentals for these properties.

NOTE 7 - CERTIFICATES OF PARTICIPATION:

The agreement is between the Long Beach Community College District as the "lessee" and the Long Beach Community College District Financing Corporation as the "lessor" or "Corporation". The Corporation is a legally separate entity which was formed for the sole purpose of the acquisition, construction, and improvement of, among other things, a new Child Development Center, a new Industrial Technology Building, various seismic retrofitting projects and repairs, barrier removals, scheduled maintenance, and hazardous waste remediation projects.

The Corporation's funds for acquiring these items were generated by the issuance of \$34,300,000 of Certificates of Participation (COPs). COPs are long-term debt instruments which are tax exempt and therefore issued at interest rates below current market levels for taxable investments.

Lease Payments - Lease payments are required to be made by the District under the lease agreement on each October 1 for use and possession of the equipment for the period commencing October 1, 2001 and terminating October 1, 2031. Lease payments will be funded in part from the proceeds of the Certificates. Interest will be paid at the Dutch Auction Rate not to exceed 12%.

NOTE 9 - GENERAL OBLIGATION BONDS: (continued)

On November 29, 2005 the District offered for sale \$65,000,000 in General Obligation 2002 Election Series B (2005) Bonds. The bonds were issued as current interest bonds and contain an interest provision ranging from 3.75 percent to 5 percent, depending on maturity date of the bond. The proceeds of these bonds are to be used for acquisition, construction, furnishing and equipping of District facilities.

On November 29, 2005, the District offered for sale \$28,224,898 in General Obligation 2002 Election Series C (2005) Bonds. The bonds were issued as current interest bonds in the aggregate principal amount of \$21,485,000 and capital appreciation bonds in the aggregate principal amount of \$6,739,898. These bonds contain an interest provision ranging from 3.75 percent to 5 percent depending on maturity date of the bond. These bonds were issued to refund certain outstanding general obligation bonds (Series A) of the District and to pay for certain capital improvements.

The capital appreciation bonds were issued with maturity dates of May 1, 2014 through May 1, 2017. Prior to the applicable maturity date, each bond will accrete interest on the principal component. At June 30, 2008, \$7,718,840 in accreted interest has been accrued and included in long-term debt.

\$5,519,550 in proceeds were deposited in the Revenue Bond Construction Fund. The balance of proceeds associated with the refunding were deposited in an escrow fund for future repayment. At June 30, 2008 the outstanding balance of the defeased debt to be paid by the escrow agent totaled \$27,175,000. These bonds are considered fully defeased and are not recorded on the financial statements. The difference in cash flow requirements related to this refunding amounted to a savings of approximately \$4,546,350. These savings resulted in a re-calculation of the collections and payments toward bond payoffs and are included in the consolidated schedule noted on the subsequent page.

On October 24, 2007, the District offered for sale \$70,999,987 in General Obligation 2002 Election Series D (2007) Bonds. The bonds were issued as current interest bonds in the aggregate principal amount of \$43,550,000 and capital appreciation bonds in the aggregate principal amount of \$27,449,987. These bonds contain an interest provision ranging from 3.63 percent to 5.0 percent depending on maturity date of the bond. These bonds were issued to be used for acquisition, construction, furnishing and equipping of District facilities.

NOTE 9 - GENERAL OBLIGATION BONDS: (continued)

Proceeds received in excess of debt are added to the maturity amount and amortized to interest expense over the life of the liability. The bonds issued in November, 2005 and August, 2007 included a premium of \$8,227,031 and \$2,506,185, respectively. The net amount of \$9,643,153 is amortized using the straight-line method. Amortization of \$645,274 was recognized during the 2007-08 year.

The difference between the reacquisition price and the net carrying amount on refunded debt is deferred and amortized as a component of interest expense over the life of the new debt. Payments to the refunding escrow agent exceeded the existing carrying value of the refunded debt by \$1,048,716. Amortization of \$45,596 was recognized during the 2007-08 year.

LONG BEACH COMMUNITY COLLEGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2008

NOTE 11 – INTERNAL SERVICE ACTIVITY:

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District has established an Internal Service Fund to account for and finance its risks of loss related to property and liability. Under this program, the Internal Service Fund provides coverage for up to a maximum of \$50,000 for each general liability claim and \$10,000 for each property damage claim. The District participates in a JPA to provide excess insurance coverage above the member retained limit for property and liability claims. Settled claims have not exceeded the coverage provided by the JPA in any of the past three fiscal years.

Funding of the Internal Service Fund is based on estimates of the amounts needed to pay prior and current year claims. Funding is provided by transfers from the General Fund. Claims paid within the member retained limit during 2007-08 totaled \$63,745.

Prior to July 1, 2003, the District was self-insured for risks of loss related to workers' compensation. Under this program, the District provided funding ranging from \$100,000 up to a maximum of \$350,000, based on the claim year, for each workers' compensation claim. The District purchased commercial insurance and/or participated in a JPA to provide coverage for claims above the self-insured retention level to the statutory limit of \$1M. Settled claims have not exceeded this additional coverage in any of the past three fiscal years.

Effective July 1, 2003, the District participates in a JPA that provides first-dollar coverage for risk of loss related to workers' compensation. The District continues to pay for run-off claims related to years prior to July 1, 2003. Run-off claims payment activity is reported in the District's General Fund. Run-off claims paid during 2007-08 totaled \$202,160.

Claims Liability

At June 30, 2008, the District accrued the worker's compensation claims liability for run-off claims in accordance with GASB Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The amount of future liability is estimated at \$1,431,672.

An estimate for claims liability related to property and liability risk has not been recorded and is not believed to be material.

NOTE 12 - EMPLOYEE RETIREMENT PLANS:

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Academic employees are members of the State Teachers' Retirement System (STRS) and classified employees are members of the Public Employees' Retirement System (PERS) and part-time, seasonal and temporary employees and employees not covered by STRS or PERS are members of the Alternative Retirement System (ARS).

State Teachers' Retirement System (STRS)

Plan Description

The District contributes to the State Teachers' Retirement System (STRS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by STRS. The plan provides retirement, disability and survivor benefits to beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law. STRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the STRS annual financial report may be obtained from STRS, 7667 Folsom Boulevard, Sacramento, CA 95826.

Funding Policy

Active plan members are required to contribute 8.0% of their salary and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the STRS Teachers' Retirement Board. The required employer contribution rate for fiscal year 2007-08 was 8.25% of annual payroll. The contribution requirements of the plan members are established and may be amended by State statute.

NOTE 12 - EMPLOYEE RETIREMENT PLANS: (continued)

Public Employees' Retirement System (PERS)

Plan Description

The District and Auxiliary contributes to the School Employer Pool under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. Both entities contribute to separate pools due to the number of employees. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law. CalPERS issues a separate comprehensive annual financial report that includes required supplementary information. Copies of the CalPERS' annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, CA 95814.

Funding Policy

Active plan members are required to contribute 7.0% of their salary for District employees and 8.0% of their salary for Auxiliary employees. The District and Auxiliary are required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal year 2007-08 was 9.306% of annual payroll for the District and 27.682% of annual payroll for the Auxiliary. The contribution requirements of the plan members are established and may be amended by State statute.

Contributions to STRS and PERS

The District's contributions to STRS and PERS for each of the last three fiscal years is as follows:

Year Ended June 30,	STRS		PERS		
	Required Contribution	Percent Contributed	Required Contribution District	Required Contribution Auxiliary	Percent Contributed

Alternative Retirement System (ARS)

Plan Description

The Alternative Retirement System Plan (ARS) is a defined contribution plan qualifying under §401(a) and §501 of the Internal Revenue Code. The plan covers part-time, seasonal and temporary employees and employees not covered by §3121(b)(7)(F) of the Internal Revenue Code. The benefit provisions and contribution requirements of plan members are established and may be amended by the Governing Board of the District. The plan is administered by MidAmerica Administrative Solutions, Inc.

Funding Policy

The District does not contribute any percentage based on the employee's gross earnings. An employee is required to contribute 7.5% of his or her gross earnings to the pension plan. Total contributions were made by the employees in the amount of \$521,777 during the fiscal year. The total amount of covered compensation was \$6,956,974. Contributions made by the employee vest immediately.

NOTE 13 – SUPPLEMENTAL EMPLOYEE RETIREMENT PLAN:

The District has four Supplemental Employee Retirement Plans for faculty and management/confidential employees. The accumulated future liability for the District at June 30, 2008 is \$2,809,340.

2003-04 Supplemental Employee Retirement Plan:

In 2003-04, the Board of Trustees approved the implementation of the District's Supplemental Employee Retirement Plan for faculty and management/confidential employees.

A total of 26 faculty and 11 management/confidential employees initially participated in the plan with 2 management/confidential employees being added in August 2004. A total of 39 employees are now participating in the plan. The total cost to the District is approximately \$3 million. The District will pay benefits of \$586,982 annually through 2007-08. There is no remaining liability in this plan.

NOTE 14 – POSTEMPLOYMENT HEALTHCARE BENEFITS:

Plan Description

The District provides employee health benefits coverage for eligible retirees and their families. Employees hired prior to February 1, 1995 who retire from District service are eligible for Option A or B. Employees hired after February 1, 1995 are eligible for Option B.

Option A:

An employee who retires from the District under PERS/STRS guidelines, after more than twelve/fifteen years of service for classified/academic qualifies for District-paid hospital-medical-benefits. Employees who retire under age 65 qualify for coverage up to age 67. Employees who retire after age 65 qualify for up to 4 years of coverage past retirement based on years of service.

Option B:

An employee, who retires from the District under PERS/STRS, after more than twelve/fifteen years of service for classified/academic qualifies for one year of District-paid hospital/medical benefits for every three/five years of full-time District service.

Benefit provisions are established through negotiations between the District and the bargaining unions representing employees and are renegotiated each three-year bargaining period. The Retiree Health Plan does not issue a separate financial report.

Membership of the plan consisted of the following at March 1, 2007, the date of the latest actuarial valuation:

Retirees and beneficiaries receiving benefits	162
Terminated plan members entitled to but but not yet receiving benefits	0
Active plan members	<u>846</u>
Total	<u>1,008</u>

Summary of Significant Accounting Policies

Basis of Accounting. The statements of plan net assets and changes in plan net assets are prepared using the accrual basis of accounting. Employer contributions to the plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Method Used to Value Investments. Investments are reported at fair value, which is determined by the most recent bid and asked prices as obtained from dealers that make markets in such securities.

Funding Policy

The District currently finances benefits on a pay-as-you-go basis. The District incurs 100 percent of the cost of current year premiums for eligible retired plan members and their spouses as applicable. Contribution requirements to the trust are established and may be amended by the District. For fiscal year 2007-08, the District did not make a contribution to the trust. The ending reserve balance in the trust totaled \$1,036,127 at June 30, 2008.

Funding Status and Funding Progress

As of March 1, 2007, the most recent actuarial valuation date, the actuarial accrued liability for benefits was \$19,923,941 and the unfunded actuarial accrued liability (UAAL) was \$19,819,552. The covered payroll (annual payroll of active employees covered by the plan) was \$59,365,956, and the ratio of the UAAL to the covered payroll was 33.39%.

Actuarial valuations of an ongoing benefit plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets, if any, is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

NOTE 14 – POSTEMPLOYMENT HEALTHCARE BENEFITS: (continued)

Funding Status and Funding Progress (continued)

The accompanying schedule of employer contributions, also presented as required supplementary information, presents trend information about the amounts contributed to the plan by employers in comparison to the Annual Required Contribution (ARC), an amount that is actuarially determined in accordance with the parameters of GASB Statement 43. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost for each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, if any, consistent with the long-term perspective of the calculations.

For the March 1, 2007 actuarial valuation, the most recent actuarial valuation performed, the entry age normal cost method was used. The actuarial assumptions included a 5.0 percent investment rate of return (net of administrative expenses) which is a blended rate of the expected long-term investment returns on plan assets and on the employers own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 4 percent. Both rates included a 3.0 percent inflation assumption. The actuarial value of assets was determined using the asset values provided by the District. The UAAL is being amortized as a level percentage of projected payroll. The remaining amortization period at June 30, 2008, was twenty-nine years.

NOTE 15 - JOINT VENTURES (JOINT POWERS AGREEMENTS):

The District participates in three joint Powers Agreements (JPA) entities: the Statewide Association of Community Colleges (SWACC), Protective Insurance Program for Schools (PIPS), and the California Statewide Tax Authority (the Authority). The relationship between the District and the JPAs is such that the JPAs are not component units of the District for financial reporting purposes.

LONG BEACH COMMUNITY COLLEGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2008

NOTE 15 - JOINT VENTURES (JOINT POWERS AGREEMENTS): (continued)

SWACC provides liability and property insurance for approximately nineteen community colleges. SWACC is governed by a Board comprised of a member of each of the participating districts. The board controls the operations of SWACC, including selection of management and approval of members beyond their representation on the Board. Each member shares surpluses and deficits proportionately to its participation in SWACC.

PIPS provides workers' compensation insurance protection to its membership for public schools and community colleges throughout California.

The Authority purchases delinquent ad valorem property taxes from school agencies in Los Angeles County to receive additional unrestricted revenues through financing of property tax delinquencies. The Authority is a pass through entity and financial information is not available. For the fiscal year 2007-08, the District refunded \$411,474 to the Authority for corrections in tax calculations.

Each JPA is governed by a board consisting of a representative from each member district. Each governing board controls the operations of its JPA independent of any influence by the Long Beach Community College District beyond the District's representation on the governing boards.

Each JPA is independently accountable for its fiscal matters. All JPA's maintain their own accounting records. Budgets are not subject to any approval other than that of the respective governing boards. Member districts share surpluses and deficits proportionately to their participation in the JPA.

The relationships between the Long Beach Community College District and the JPAs are such that neither JPA is a component unit of the District for financial reporting purposes.

NOTES TO FINANCIAL STATEMENTS

June 30, 2008

NOTE 17 - COMMITMENTS AND CONTINGENCIES:

A. State and Federal Allowances, Award and Grants

The District has received state and federal funds for specific purposes, including reimbursement of mandated costs that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursement will not be material.

B. Purchase Commitments

As of June 30, 2008, the District was committed under various capital expenditure purchase agreements for construction and modernization projects totaling approximately \$31 million. Projects will be funded through bond proceeds and state funding for capital outlay projects.

C. Litigation

The District is involved in an unfair practice charge and a bargaining unit layoff claim arising in the ordinary course of business, the outcomes of which are not known at the present time. The estimated claim amount related to the unfair practice charge is approximately \$439,000. The bargaining unit claim can not be estimated at this time. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the District's financial statements.

NOTE 18 - SUBSEQUENT EVENTS:

A. GASB Statement No. 45

The Governmental Accounting Standards Board (GASB) has issued GASB Statement No. 45 outlining new accounting standards for governmental agencies regarding other post-employment benefits. The statement will be effective for the District in fiscal year 2008-09. The statement requires governmental agencies to record and disclose the actuarially determined cost based on the benefits expected to be earned by employees in the future, as well as those benefits the employees have already earned. Annual required contributions shall include the employer's normal cost and a provision for amortizing the total unfunded actuarial accrued liability for a period not to exceed 30 years. The statement will also require that an actuarial valuation be performed every two years for a plan with more than 200 members and every three years for plans with fewer than 200 members.

On January 24, 2006, the Board of Trustees approved the District's participation in the FUTURIS Public Entity Investment Trust. The Trust is an alternative for mitigating the unfunded liability required by GASB 45. As of June 30, 2008, the District has contributed \$1,000,000 to the Trust. The Trust activity is reported in the fiduciary statements of plan assets. Additional disclosure is presented in Note 14.

B. General Obligation Bonds

On May 27, 2008 the Board authorized the District to issue Series A general obligation bonds in the aggregate amount of \$48,373,981. The bonds are authorized by an election conducted within the District February 2008 under Proposition 39 and were issued on July 8, 2008. The bonds are issued in order to finance the construction, acquisition, furnishing and equipping of District facilities.

C. Defeasement of Long-Term Debt

With the subsequent bond issuance, the District exercised their option to prepay the following debt in accordance with the project list to purchase real property and equipment leased by the District:

<u>Long-Term Debt</u>	<u>Prepaid Amount</u>	<u>Payment Date</u>
Financing Agreement	\$16,348,368	July 25, 2008
Capital Lease	803,148	October 1, 2008
Certificates of Participation	30,502,449	July 31, 2008

D. Purchase Agreements for Properties

On July 8, 2008, the Board of Trustees approved the purchase agreements for properties located in Long Beach, California for the following amounts plus any other relocation and/or incidental expenses:

- 1521-1527 Pacific Coast Highway for \$1,850,000;
- 1585 Pacific Coast Highway for \$710,000; and
- 1501 Pacific Coast Highway for an amount not to exceed \$750,000.

On September 23, 2008, the Board of Trustees approved the purchase agreement for property at 4900 & 4910 E. Conant Street in Long Beach, California, for the purchase price of \$11,500,000 plus all applicable fees and charges required for closing. Closing of escrow is contingent on terms of the purchase agreement.

E. Dissolution of the Long Beach Community College Financing Authority Corporation

With the defeasement of debt associated with the Certificates of Participation, the Long Beach Community College Financing Authority Corporation (the Corporation) is in the process of dissolution.

LONG BEACH COMMUNITY COLLEGE DISTRICT

NOTES TO SUPPLEMENTARY INFORMATION

For the Fiscal Year Ended June 30, 2008

NOTE 1 - PURPOSE OF SCHEDULES:

A. Schedules of Expenditures of Federal Awards and State Financial Assistance

The audit of the Long Beach Community College District for the year ended June 30, 2008 was conducted in accordance with OMB Circular A-133, which requires a disclosure of the financial activities of all federally funded programs. To comply with A-133 and state requirements, the Schedules of Expenditures of Federal Awards and State Financial Assistance were prepared for the Long Beach Community College District on the accrual basis of accounting.

B. Schedule of Workload Measures for State General Apportionment

The Schedule of Workload Measures for State General Apportionment represents the basis of apportionment of the Long Beach Community College District's annual source of funding.

C. Reconciliation of Annual Financial and Budget Report with Audited Fund Balances

This schedule reports any audit adjustments made to the fund balances of applicable funds as reported on the Form CCFS-311.

D. Schedule of Financial Trends and Analysis

The report is prepared to show financial trends of the General Fund over the past three fiscal years as well as the current year budget. This report is intended to identify if the District faces potential fiscal problems and if they have met the recommended available reserve percentages.

E. Schedule of Budgetary Comparison for the General Fund

Continuing disclosure for the general obligation bond requires a budgetary comparison be presented for the General Fund. This schedule presents the adopted General Fund budget as of the fiscal year end, actual amounts at fiscal year end and the variance between the adopted budget and actual amounts.

OTHER INDEPENDENT AUDITORS' REPORTS

REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

The Board of Trustees
Long Beach Community College District
4901 E. Carson Street
Long Beach, CA 90808

We have audited the basic financial statements of Long Beach Community College District (the District) as of and for the year ended June 30, 2008, and have issued our report thereon dated November 11, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Long Beach Community College District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affect the District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the District's financial statements that is more than inconsequential will not be prevented or detected by the District's internal control.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

A material weakness is a significant deficiency, or a combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the District's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies and, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Long Beach Community College District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the audit committee, the Board, the California Department of Finance, the State Chancellor's Office and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND ON
INTERNAL CONTROL OVER COMPLIANCE IN
ACCORDANCE WITH OMB CIRCULAR A-133

The Board of Trustees
Long Beach Community College District
4901 E. Carson Street
Long Beach, CA 90808

Compliance

We have audited the compliance of Long Beach Community College District (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2008. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008.

**REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND ON
INTERNAL CONTROL OVER COMPLIANCE IN
ACCORDANCE WITH OMB CIRCULAR A-133**

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the audit committee, the Board, the California Department of Finance, the State Chancellor's Office and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON STATE COMPLIANCE

The Board of Trustees
Long Beach Community College District
4901 E. Carson Street
Long Beach, CA 90808

We have audited the basic financial statements of Long Beach Community College District, as of and for the year ended June 30, 2008, and have issued our report thereon dated November 11, 2008.

Our examination was made in accordance with auditing standards generally accepted in the United States of America and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In connection with our audit, we performed an audit for compliance as required in Part II, State and Federal Compliance Requirements for those programs identified in the California Department of Finance's 2008 transmittal of audit requirements for community colleges. The objective of the examination of compliance applicable to the Long Beach Community College District is to determine with reasonable assurance:

- Whether the District's salaries of classroom instructors equal or exceed 50 percent of the District's current expense of education in accordance with Section 84362 of the Education Code.
- Whether the District has the appropriate documentation to support the FTES, if any, that are claimed for instructional service agreements/contracts.
- Whether the District has the ability to support timely accurate and complete information for workload measures used in the calculation of State General Apportionment.
- Whether the District has acted to ensure that the residency of each student is properly classified and that only the attendance of California residents is claimed for apportionment purposes.
- Whether the District claimed for apportionment purposes only the attendance of students actively enrolled in a course section as of the census date.

REPORT ON STATE COMPLIANCE

- Whether District has complied with all requirements necessary to claim FTES for the attendance of concurrently enrolled K-12 pupils.
- Whether the District had local funds to support at least 75 percent of the credit matriculation activities and that all matriculation expenditures are consistent with the District's State approved matriculation plan.
- Whether the Gann Limit Calculation was properly calculated and supported by adequate documentation.
- Whether the District is reporting the total amount that students should have paid for enrollment fees for the purpose of determining the District's share of annual apportionment.
- Whether the District expended CalWORKS program State and TANF funds to provide specialized student support services, curriculum development, or instruction to eligible CalWORKS students.
- Whether the District spent an amount equal to or greater than the amount provided by the State for scheduled maintenance and special repairs. Funds provided by the State must be to supplement, not supplant, District scheduled maintenance funds. The amount expended for plant maintenance and operations during the base year of 1995-96 was \$3,857,806.
- Whether all District courses that qualify for State apportionment are open to enrollment by the general public unless specifically exempted by statute.
- Whether the District has adopted policies or regulations regarding the authority of the District to require students to provide various types of instructional materials and whether the District has advised students of the exemptions from payment of health fees and established a process to ensure that students may claim the exemptions.

In our opinion, Long Beach Community College District complied with the compliance requirements for the state programs listed on the previous pages and tested. Nothing came to our attention as a result of the aforementioned procedures to indicate that Long Beach Community College District had not complied with the terms and conditions of state assisted educational programs not selected for testing.

REPORT ON STATE COMPLIANCE

Our examination of compliance made for the purposes set forth in the preceding paragraph of this report would not necessarily disclose all instances of noncompliance.

This report is intended solely for the information and use of management, the audit committee, the Board, the California Department of Finance, the State Chancellor's Office and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

STATUS OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS June 30, 2008

Finding No.	Finding	Recommendation	Current Status
07-1	<p><u>INTERNAL CONTROL – AUDIT ADJUSTMENTS</u></p> <p>Statement on Auditing Standards No. 112 states that “controls over the period-end financial reporting process, including controls over procedures used to enter transaction totals into the general ledger; initiate, authorize, record and process journal entries into the general ledger; and record recurring and nonrecurring adjustments to the financial statements are deficiencies that ordinarily are at least significant deficiencies in internal control.” Generally, controls that are relevant to an audit of financial statements are those that pertain to the District's objective of reliable financial reporting. Of significant importance are the controls over the entries made in conjunction with the District's closing procedures. Closing procedures require review to ensure that the accounting and reporting are accurate and in accordance with applicable standards.</p> <p>The following errors were noted during the audit that resulted in audit adjustments:</p> <ul style="list-style-type: none"> • General Fund – cash understated (\$379,015) • Bond Building Fund – over accrual accounts payable (\$777,679) • Bond Building Fund – under accrual prepaid expense (\$441,843) 	<p>Have management review the closing procedures currently in place to determine additional safeguards that could be implemented to strengthen the internal control.</p>	<p>Implemented.</p>

An adequate review process could have prevented or detected these errors in a timely manner. Considering the magnitude of the above adjustments, a material weakness exists as the control deficiency effected the District's ability to prevent or detect material misstatements.

07-2	<u>INTERNAL CONTROL: CASH – ASSOCIATED STUDENT BODY (ASB) AND AUXILIARY</u>		
	Original Finding: 05-5		
	The following observations were noted in our review of ASB and Auxiliary procedures and controls:		
	i. Safeguarding of Cash (ASB) - Cash drawers used by the ASB should be adequately safeguarded and individual accountability should be maintained. Currently, the cash register used in the ASB office is used by the two ASB employees. When not in use, the drawer is not kept locked to prevent theft or misuse. In the event of a shortage, it would be difficult to determine who is responsible for the shortage.	i. Remove the key for the cash register and store it in a safe location while not in use. This will prevent unauthorized individuals from gaining access to the cash register.	i. Implemented.
	ii. Safeguarding of Cash (Auxiliary) - Money turned in by bookstore cashiers should be verified in dual custody. In the event of a large variance it would be difficult to determine who is responsible for the shortage.	ii. Implement procedures to maintain individual accountability.	ii. Implemented.

07-3	<p><u>INTERNAL CONTROL: AUXILIARY SEGREGATION OF DUTIES</u></p> <p>Based on responses to the internal control questionnaires, the following observations are made related to segregation of duties as one employee, the Payroll Clerk, has primary responsibility for the below suggested controls.</p> <p>Segregation of Duties related to Payroll:</p> <p>To the maximum extent possible, separate individuals should be responsible for:</p> <ul style="list-style-type: none"> o Maintaining personnel files o Entering employees in the computer system o Making rate changes in the computer system o Verifying time sheets, cards, etc. o Preparing payroll journal/checks o Distributing checks <p>The Payroll Clerk has a concentration of key responsibilities such as inputting new employees, inputting time cards and distributing checks, which provides an opportunity for unauthorized transactions to occur. Additionally, with the Payroll Clerk inputting rate changes, procedures should be in place to ensure that rate changes made in the payroll system are reviewed after input to ensure accuracy and propriety. Inaccurate or unauthorized pay changes could occur and not be identified.</p>	<p>We recommend that management review the procedures noted above to determine additional safeguards that could be implemented to strengthen the internal control. Deficiencies in internal control, individually or in combination with other control deficiencies, represent opportunities for misappropriation of District funds. Management is responsible to continuously assess the risk that internal controls are no longer effective and to revise procedures and job responsibilities as needed.</p>	Implemented.

07-3	<p><u>INTERNAL CONTROL: AUXILIARY SEGREGATION OF DUTIES</u> (continued)</p> <p>Segregation of Duties Related to Payroll Cash Account:</p> <p>To the maximum extent possible, separate individuals should be responsible for:</p> <ul style="list-style-type: none"> o Opening mail o Preparing list of remittances o Preparing deposits o Taking deposits to bank o Comparing remittance lists with bank deposits o Maintaining cash receipts journals o Preparing checks o Approving disbursements o Reconciling bank accounts o Maintaining cash disbursement journal <p>Our review of segregation of duties identified that the Payroll Clerk position has responsibility to perform the functions listed above for the Payroll Cash bank account. The combination of transaction authorization, record keeping, and custody responsibilities increases the inherent limitation to the effectiveness of internal control. Unauthorized withdrawals or transfers could be made and journal entries prepared to conceal the transaction.</p>

07-3	<p><u>INTERNAL CONTROL: AUXILIARY SEGREGATION OF DUTIES (continued)</u></p> <p>Segregation of Duties Related to Journal Entries:</p> <p>Review and approval procedures should be in place for all journal entries to ensure journal entries posted are accurate and appropriate. Our review noted that journal entries prepared by the Payroll Clerk are not reviewed or approved prior to input. In addition, month end journal entry logs are printed out; however, there is no evidence of review by the Assistant Director.</p>

07-4	<p><u>STATE COMPLIANCE: CONCURRENT ENROLLMENT</u></p> <p>Procedures should be in place to adequately calculate and monitor compliance with the concurrent enrollment ten percent and five percent rules. Per Education Code Section 76002(a)(4), the district shall not receive State apportionment for special part-time and full-time students enrolled in physical education courses as defined below:</p> <ul style="list-style-type: none"> • Five Percent Rule – courses where the ratio of special part-time and full-time students is in excess of five percent of the district's total reported FTES (Full Time Equivalent Students) of special part-time and full-time students • Ten Percent Rule – courses where the ratio of special part-time and full-time students exceeds ten percent of total enrollment in each course section 	<p>Develop procedures to monitor and exclude from the CCFS-320 report the FTES generated as of census date for physical education courses in excess of the ten percent and five percent maximum. No revisions to the CCFS-320 for the 2006-07 fiscal year are necessary as the non-compliance is less than one FTES.</p>	Implemented.

07-4	<p><u>STATE COMPLIANCE: CONCURRENT ENROLLMENT (continued)</u></p> <p>Our testing noted that monitoring procedures are not in place over concurrent enrollment. Based upon the reports provided, we determined the District complied with questioned percentages in regards to the five percent rule; however, we identified one physical education course section with enrollment of special part-time and full-time students in excess of ten percent of total enrollment. The non-compliance course is as follows:</p> <table><tr><th>Term</th><th>Course ID</th><th>Course #</th><th>Course Name</th><th>Percentage</th></tr><tr><td>Sum 06</td><td>PEG 83AD</td><td>50351</td><td>Tennis</td><td>25%</td></tr></table> <p>Course sections in excess of ten percent are an indication of non-compliance and overstated the FTES claimed on the CCFS-320 report by .38 FTES. Although the District is not required to adjust for FTES less than one, continued lack of monitoring procedures could subject the District to future non-compliance and misstatement of FTES that could result in an adjustment to the CCFS-320.</p>	Term	Course ID	Course #	Course Name	Percentage	Sum 06	PEG 83AD	50351	Tennis	25%

07-5	<p><u>FEDERAL COMPLIANCE: FEDERAL WORK STUDY – PAYROLL DOCUMENTATION</u></p> <p>Federal Program: Federal Work Study Federal Catalog Number: 84.033 Compliance Requirement: N. Special Tests and Provisions Award Amount: \$635,173</p> <p>Original Finding: 05-6</p> <p>Time cards for Federal Work Study (FWS) students should be signed by the employee and their immediate supervisor. A review of a sample of student time cards indicated that signatures were not present and supervisors' signatures were inconsistent from department to department. District policy acknowledges the Time and Reporting System (TARS) electronic authorization as the official record, however, the District's policy does not address the issue of signatures on Federal Work Study time cards. The policy does require that time cards are maintained. The Federal Student Financial Aid Handbook requires that certification must be signed by the student's supervisor, an official of the school or off-campus agency as appropriate. A memo was sent to FWS Supervisors in April 2006 regarding timekeeping requirements. Our review of ten time cards determined that procedures had not been fully implemented.</p>	<p>Continue with implementation of new procedures related to FWS timekeeping requirements and ensure all departments are complying with the requirements.</p>	<p>Implemented.</p>
